

Subject Index

Adolescents

- alcoholism and coexisting problems in, 157-163
- alcoholism in, 172-178, 181-185
- risk of alcoholism in, 202-212

Adoption paradigm, 59-70

Adoption studies and alcoholism, 59-70, 147

Age

- and alcohol dependence, 55
- at onset of alcoholism, 50

Alcohol abuse among adolescents, 173, 204

Alcohol and drug abuse subtypes, 187-199

Alcohol consumption

- genetic influences on, 72-82
- patterns of, 81-82

Alcohol expectancies, 165-170

Alcohol subtyping and gender, 36-37

Alcohol treatment

- approaches to, 230-237
- cost effectiveness of, 231-232
- influence of Federal government in, 233-234

Alcohol use

- sociocultural influences on, 38-39
- intensity of, among adolescents, 204

Alcoholic patient-treatment matching, 218

Alcoholic patients, heterogeneity of, 239

Alcoholic pedigrees, 241

Alcoholic-specific factors in etiology of alcoholism, 136

Alcoholic subtypes, 7-20, 23-32, 34-46, 49-50, 119-126, 134-144, 187-199, 214-217, 230-237, 338-347

Alcoholic typologies. *See* Typologies of alcoholics

Alcoholics

- classification of, 1-5

- matching coping skills or interactional therapies in, typology of, 23-32

Alcoholism

- adolescents and, 157-163

- heterogeneity of, 172-178

- and environment, 173

- anxiety and conduct disorders in, 181-185

- comprehensive theory of, 238-247

- endoform and exoform types of, 89-91

- etiology of, 72-82, 134, 165-170

- familial, 147-154

- and personality-environment fit, 202-212

- genetic effects in, 59-70

- genetic vulnerability to, 108-116

- genetics of, 49-56, 215-216

- high risk studies of, 97

- risk of, in adolescents, 202-212

- subtypes, 214

- thyrotropin-releasing hormone and, 129-133

- Type A and Type B, 3, 23-32, 37, 41-42, 221, 240

- Type I and Type II, 36, 49, 119-126, 137, 142, 183, 240

- typology of, 214-215

- variant patterns of, 86-95

Alcoholisms, multiple, evidence for, 137

American Association for the Cure of Inebriates, 231

American Society for Addiction Medicine (ASAM), 236

AMERSA, 236

Antisocial alcoholism (AAL), 142

Antisocial behavior and alcoholism, 139

Antisocial Personality Disorder, 100, 187-189

- and alcoholism, 59-70, 124

- and drunk driving, 49-56

Anxiety in early onset alcoholism, 181–185
 Arousal profiles in unidimensional typology, 198
 ASAM. *See* American Society for Addiction Medicine
 Assortment for liability to substance abuse, 102–106
 Attention Deficit Disorder in alcoholism, 59–70

Behavior, antisocial, and alcoholic subtypes, 143
 Biochemical model of drug-addicted/drug-preferring state, 111–115
 Biological risk factors in alcoholism, 241
 Biologic markers of risk for alcoholism, 133, 241
 Biological predisposition to alcoholism, 93–95
 Bivariate genetic model of problem drinking, 76–77
 Borderline Personality Disorder in female alcoholics, 55

California Psychological Inventory (CPI), 153
 Categories Test of the Halstead Battery, 98
 Center for Substance Abuse Treatment (CSAT), 233
 Chemical Use Survey (CUS), 9–20
 Childhood Conduct Disorder, 243
 Cloninger alcoholism studies, 49
 Cloninger subtypes of alcoholics, 140
 Cluster analogies, 7–20
 Cluster analysis, 43
 of alcoholic adolescents, 174
 Cocaine action in mesolimbic dopamine system, 110–111
 Conditioned craving, 245
 Conduct Disorder
 in female alcoholics, 51
 in early onset alcoholism, 181–185
 symptoms of, in female alcoholics, 55

Coping skills training in alcoholism treatment, 219
 CPI. *See* California Psychological Inventory
 CSAT. *See* Center for Substance Abuse Treatment
 CUS. *See* Chemical Use Survey

Danish Adoption Study, 148
 Delinquency in adolescents and alcoholism, 159
 Depression
 and alcoholism, 139
 and Antisocial Personality Disorder, 187–189
 in alcoholism, 59–70
 primary *versus* secondary, 188
 symptoms in adolescents, 159
 Descriptive typologies, 3
 Drug addiction, 108
 Drug and alcohol abuse
 mechanisms of, 115–116
 subtypes, 187–199
 Drug dependence, 99
 and alcoholism, 93
 Drug Use Screening Inventory (DUSI), 175
 Drunk driving among women, 49–56
 DSM-III-R, 238
 criteria for alcohol dependence among women, 51
 DUSI. *See* Drug Use Screening Inventory

Economic incentives in alcohol treatment, 235–236
 Endoform type of alcoholism, 89–91
 Environment
 alcoholic, exposure to, 139
 differences in, and familial alcoholism, 147–154
 effects on alcohol consumption, 79
 in adolescent alcoholics, 203
 in alcoholism, 151
 Environmental vulnerability in alcoholism, 135

Exoform type of alcoholism, 89-91

- F**amilial alcoholism, 101
 and personality-environment fit, 202-212
 environmental differences and, 147-154
 risk of, 138
 Family drinking influence on teen drinking, 167-168
 Family history of alcoholism, 88-89, 241
 and alcoholism in women, 50
 as risk factor, 46-47
 effect of, in adolescents, 159, 162
 Family History Research Diagnostic Criteria, 189
 Feighner criteria for alcoholism, 74-75

- G**ender
 and alcohol subtyping, 36-37
 and alcohol use intensity among adolescents, 209
 and treatment seeking, 35-36
 Gendered personality and alcohol use, 39-40
 Genetic correlation between consumption and problem drinking, 77, 81-82
 Genetic effects in alcoholism, 59-70
 Genetic epidemiology, 3-4
 Genetic factors in alcoholism, 151
 Genetic influences on alcohol consumption, 72-82
 Genetic markers in alcoholism, 119-120, 123-126
 Genetic risk for alcoholism, 147
 Genetic vulnerability in alcoholism, 4, 108-116, 135
 Genetics of alcoholism, 49-56, 214-217

- H**ereditary predisposition in alcoholism, 119
 Heredity factors in alcoholism, 88-89

- Heritability risk of problem drinking, 80, 81
 Heterogeneity of alcoholism, 119

- I**CD-10, 238
 Interactional therapy in alcoholism treatment, 220-223
 Intracellular messenger proteins, drugs and, 111
 Iowa Adoption Studies, 59-70, 150

- J**ellinek types of alcoholics, 2

- L**ife Events Record, 153
 Lifetime alcohol problems, 138-139
 Log-linear modeling, 61

- M**ale-female relationships and substance abuse, 55
 Male-limited (Type II) alcoholism, 3-4
 MAOB activity of platelets, 121, 126
 MAST. *See* Michigan Alcoholism Screening Test
 MCMI. *See* Million Clinical Multiaxial Inventory
 Michigan Alcoholism Screening Test (MAST), 100
 Michigan State University Longitudinal Study of alcoholism, 135
 Middle Adolescent Vulnerability Study, 158-163
 Milieu-limited (Type I) alcoholism, 3-4
 Million Clinical Multiaxial Inventory (MCMI), 190
 Minnesota Multiphasic Personality Inventory (MMPI), 7-20, 24
 MMPI. *See* Minnesota Multiphasic Personality Inventory
 Mood, negative, and alcohol use, 37-38
 Multidimensional scaling of alcoholics, 43, 45

Neurobiology

- of alcohol dependence, 246
- of substance dependence, 245

Neuropsychological impairment and alcoholism, 219

Nonalcohol-specific factors in etiology of alcoholism, 136

Nonantisocial alcoholism (NAAL), 142

Obesity in alcoholism, 59-70

Offspring, substance abuse and, 102-106

Opiate action in locus coeruleus, 110

Parental alcoholism, effects of, on adolescents, 210

Personality measures to assess psychopathology, 190

Personality needs in alcoholism in adolescents, 203

Personality Research Form (PRF), 7-20

Personality traits, marital assortment for, 102-106

Personality-based subtypes of chemically dependent patients, 7-20

Pharmacologic therapy in alcoholism, 92

Platelet MAO activity in alcoholism, 119-126

Polydrug abuse among female alcoholics, 52, 54

Post-traumatic Stress Disorder in adolescents, 182

PRF. *See* Personality Research Form

Problem-drinking scale, 78

Prolactin response and alcohol use, 130-132

Psychiatric illnesses and alcoholism, 123-126

Psychological expectance in alcoholism, 165-170

Psychopathology

and alcoholism, 219

personality measures for assessing, 190

Reciprocal causation between consumption and problem drinking, 77

Remission, therapeutic, in alcoholism, 93

Research in typology and genetics of alcoholism, 216-217

Risk factors in alcoholism, 168-170
biological/genetic markers of, 119

Sensation Seeking Scale V, 190

Sex differences in alcohol use, 35-37

Sex role attitudes in alcoholism, 39-40, 45-46

Social anxiety as risk factor in alcoholism, 168

Social mismatch in adolescents, 206-207

Social Phobia in adolescents, 182

Social support in alcoholism, 202

Socialization scale of the California Personality Inventory, 190

Sociocultural influences on alcohol use, 38-39

Sociopathy and alcoholism, 219

Stockholm Adoption Study, 148-149

Stress and alcohol use, 37-38

Structural representation of alcoholic subtypes, 43

Substance abuse, 99

among adolescents, 172-178

Antisocial Personality Disorder and depression in, 187-189

liability, assortment for, 102-106

Suicide

among adolescents, 185

risk in alcoholism, 91

Teen drinking, 166

Telescoping in female alcoholics, 35-36, 42

Temperament in alcohol use, 172-178

Thyrotropin response and alcoholism vulnerability, 129-133

Thyrotropin-releasing hormone and alco-

- holism, 129-133
- TPQ. *See* Tridimensional Personality Questionnaire
- Trait markers in typology theory, 4
- Tridimensional Personality Questionnaire (TPQ), 153, 190
- Twins, Australian, drinking practices in, 73-74
- Type A alcoholics, 3, 37, 41-42, 221, 240
- Type A/Type B distinction, 23-32
- Type B alcoholics, 3, 37, 41-42, 221, 240
- Type I alcoholics, 36, 49, 119-126, 137, 183, 240
- Type I/Type II categorization, problems with, 142
- Type II alcoholics, 36, 49, 119-126, 137, 183, 240

Typologies

- and genetics of alcoholism, 214-217
- comparison of, 23-32
- for treatment, implications of, 230-237
- of alcoholics, 1-5, 7-20, 23-32, 34-46, 49-50, 119-126, 134-144, 187-199, 214-217, 230-237, 238-247
- uni- and multidimensional, 187-189, 195-198

Van Knorring diagnostic criteria, 149

Withdrawal syndrome, 244

- Women, drunk driving among, 49-56
